

Correction: *Antibiotics and probiotics in inflammatory bowel disease: when to use them?*

Abraham B, Quigley EMM. Antibiotics and probiotics in inflammatory bowel disease: when to use them? *Frontline Gastroenterology* 2020;11:62–9.

A number of studies cited in this paper assessed a probiotic formulation previously known as VSL#3. The probiotic formulation that was assessed in these studies is now known by the generic name 'De Simone Formulation'. The current product known as VSL#3 is not the same formulation as the De Simone Formulation. The De Simone Formulation is available under the brand names Visbiome (USA) and Vivomixx (Europe). doi: 10.1136/flgastro-2018-100617
